Dear Brother & Sister

I received your letter
and was glad to hear from
you, and I was glad to see
Georgie, but I didnt get to
see ^{her} but an hour or so it
was late when Emma
and Georgie came and
they went away early.
I think Georgie looks like she
always did. she haunt as
large as I thought she would
be. I wanted her to stay
with me and go to school
but they would not let
her stay here. was sorry

that she went home so soon, of course Emma had to go to learn the dress making but mama would not let me learn it, when ever I would want Emma or either to come down here they would say they could spare them but Emma can go to Okla. Well matter I was down to K. C. and seen Doc. Minna and he ask me how you was getting a long, I told him Doc. Minna thinks that he cant do any thing for me, so I am left to die or live in this horribale way life hart worth living this way and i dont want to live this

way. I am taking medicine
now from Dr. minor
and in two weeks I am
to go down to K. C. and
see what he can do with
my case. I am sure he
will say he cant cure
it for he as good as said
so when I was here the
other time. well matter
I am going to make my
closs for wich they can
bury me in I am going
to comerst next week to
make them. well I have
had courage but now
I have give up and my
life is a burden to me.
Knight after Knight I lay
and cry it is hard to
leave the children but

I cant stand this. You
have no idea what I have
went through with last
summer and last winter
all so. if it is Gods will
that I must suffer
and not get well I do
hope that he will let
me die before spring
as I can not and will
not live this life much
longer. mattie excuse
such a letter and dont let
the children see it to put
any thing on their mind
for it may be my last letter
that I will write. I do love
the children so. as well as
I do love miss ~~our~~
