

Topeka Kans.

May 18<sup>th</sup> 1930.

Dearest folks  
one and all.

How are you all any way? seems ages since last we heard from any of you. do wish we could drop in on you or you could drop in on us for awhile. we are all well and all peggin along the same old way.

How do you like this weather? we are having plenty of rain. days are nearly all cool & cloudy. if it clears off to night we may have frost anyway it seems cold enough. we have fire in the furnace for several days.

wheat looks pretty good

around here. potatoes look pretty good. some corn up and some not planted. as we have not been out in the country lately, that is all I can say of it.

we have a good garden. except no strawberries this year. new patch. our potatoes ready to bloom.

peas large enough to eat. (but too muddy to pick them today.) beans nearly ready to bloom. tomatoes <sup>plants</sup> small.

How are crops with you? and how are <sup>your</sup> chickens. Eggs are as low as 15 cts now here.

Cherries are turning. trees not very full. How are your mother and father? Steins
